CMHC Purchase

Helping to Make Dreams of Homeownership Come True

For most people, the hardest part of buying a home – especially a first home – is saving the necessary down payment. CMHC insured financing can help open the doors to homeownership by enabling homebuyers to purchase a home with as little as 5% down payment from traditional and non-traditional sources.

Features

- Loan-to-value ratios up to 95% for 1 – 2 unit residential properties
- Loan-to-value ratios up to 90% for 3 – 4 unit residential properties
- Down payment flexibility – In addition to traditional sources, non-traditional sources of down payment are permitted for loans with loan-to-value ratios from 90.01% - 95%
- Flexible financing options – single advance, progress advances and extended amortization periods are available
- CMHC insured mortgages are portable – helping to reduce or eliminate the premium on the purchase of a subsequent home
- Flexibilities available for the purchase of energy-efficient homes

Benefits of CMHC Purchase

Access to Homeownership

With as little as 5% down payment from flexible sources.

Competitive Interest Rates

Access to CMHC insured financing, and as a result, competitive interest rates.

Availability

Available coast-to-coast-to-coast with no set maximum loan amount.
